## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-22 and 25, drawn to a hybrid promoter, nucleic acids and vectors comprising the promoter and a cell modified by exposure to the promoter, classified in class 536, subclass 23.1; class 435, subclass 325.
- II. Claims 23-24, drawn to methods of using a vector to prepare a composition intended for inducing the expression of a gene in an inflammatory cell or chondrocyte, classified in class 435, subclass 91.4.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I and Group II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the vectors of Group I can be used as probes for identifying a nucleic acid comprising a homolog of the gene of interest or for identifying a nucleic acid that comprises a promoter homologous to the PLA2s gene promoter of the invention.

Art Unit: 1636

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
